

- Rated voltage 144VDC
- 62.5F capacitance
- Ultra-low ESR
- Stackable 19" rack design, allows to build up large scale multi-MW energy storage systems
- Advanced cell balancing
- Voltage and temperature monitoring as well as diagnostics through CAN bus
- Fiber optic ready for harsh environment
- Ideally suited for stationary energy storage applications such as for
 - Grid distribution
 - Transportation substations
 - UPS

**Modular systems
as easy as playing
with stackable bricks**
