

- As a subsidiary of Sieyuan Electric Co, Ltd, GMCC has started operations at the new production site
- It's the largest production site worldwide for ultracapacitors with cell diameter  $\geq 33\text{mm}$
- The production site is equipped with
  - state-of-the-art, automated, digitalized and intelligent production lines
  - advanced dry electrode production
- All production lines meet automotive quality standards
- Actual production capacity:
  - 26M ultracapacitor cells
  - 7M HUC cells
  - 300k modules
- The production site maintains the balance between the existing ecosystem and biodiversity
