

# sech

Most powerful large cell  
available in the market

- Rated voltage 3 VDC
- Ultra-low ESR
- Power density of up to 38 kW/kg
- 3000 F capacitance
- High cycle life of 1 million cycles
- Excellent DC and cycle life performance
- Ideally suited for high cycling power demanding applications such as
  - On-vehicle energy recuperation storage systems of rail vehicles
  - Hybrid buses
  - Stationary network support storage
  - Different types of heavy-duty vehicles

## Strike!

Power, efficiency,  
reliability – all at once!
